

Route Analysis Tweedbank Urban 2026

Start to 1: Middle route is best

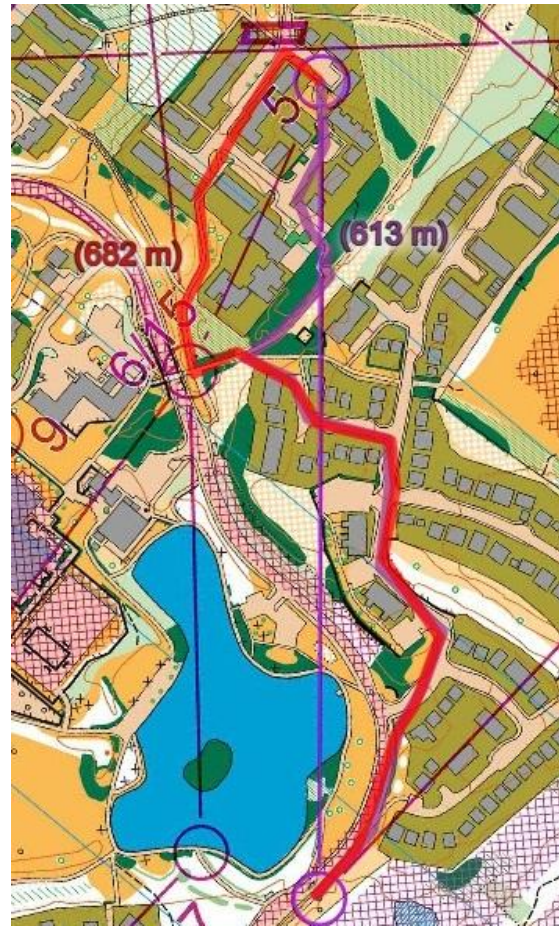

1 to 2: Route through light and dark green is shortest and best.

2 to 3: Route to right is substantially shorter.

3 to 4: Route to right is shorter and faster as left is a small muddy winding path.

4 to 5: Route to right on the path through the green is shorter.

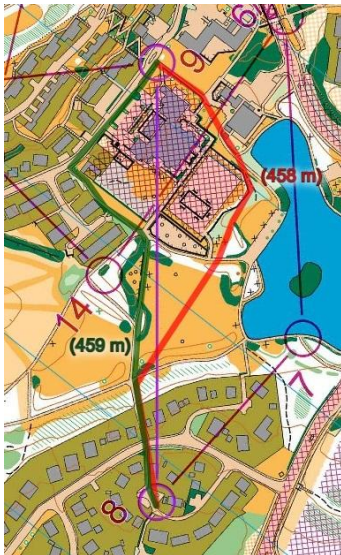

5 to 6: Slightly shorter and faster as no need to turn going right

6 to 7: Purple route is shortest but tight with a bank – red fastest.

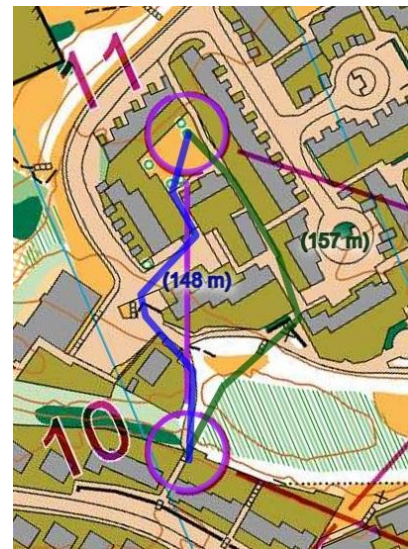

7 to 8: Two Routes similar distance but left lets you run through the control.

8 to 9: Similar distance but left easier.

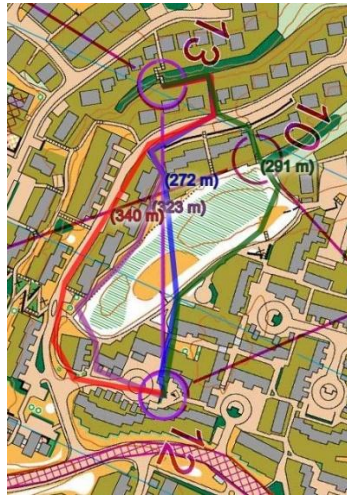

9 to 10: Right is shortest but is slower with vegetation, steps and bankings

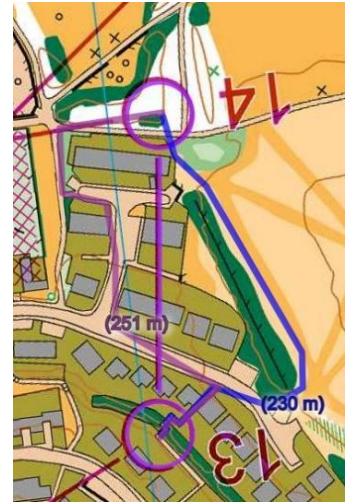

10 to 11: Left is slightly shorter but right is easier

11 to 12: Middle route is fastest as can diagonal the car park.

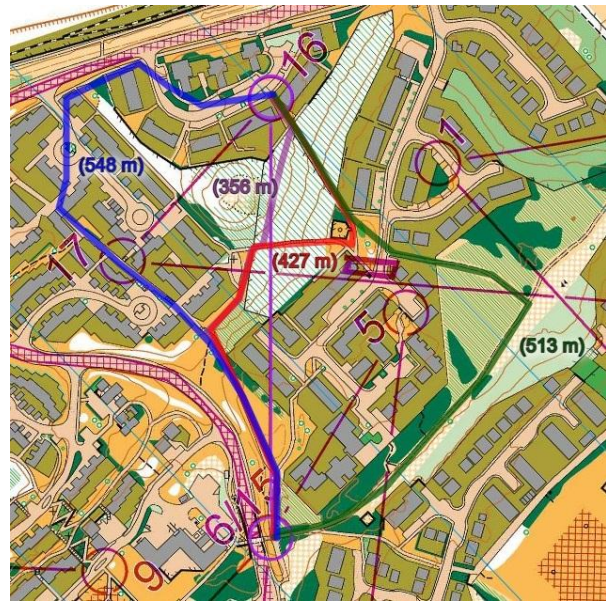

12 to 13: Blue route through the vegetation is shortest but green route to the right is best.

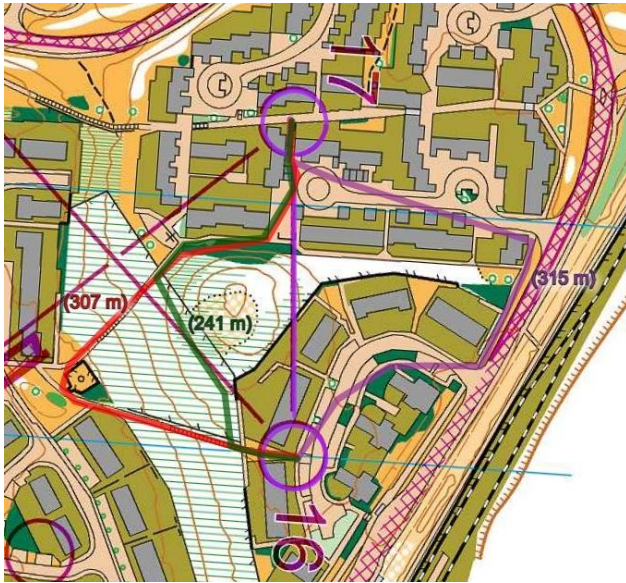

13 to 14: Route to right is shortest and easiest.

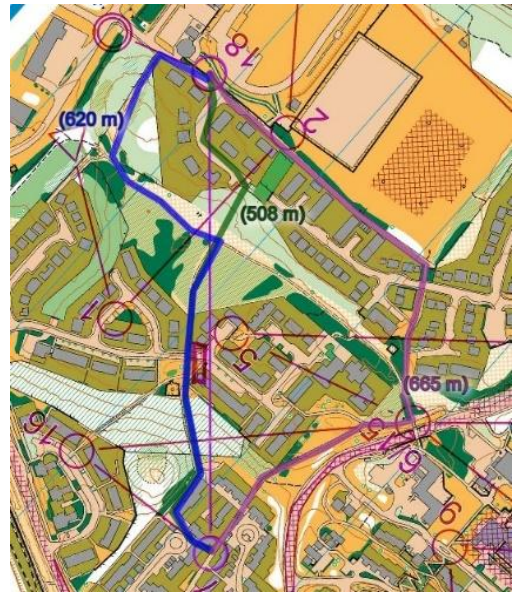

14 to 15: Same distance but left is easier.

15 to 16: Middle route is fastest even with going down and up the steps and even faster if you cut through the wood.

16 to 17: The route to the left is shorter but only quicker if you cut through the wood, going down and up would be slower than going left.

17 to 18: The route through the light green is substantially shorter and quicker.
